

KOWLOON BOWLING GREEN CLUB

Date: September 14, 2009

Dear Members,

Subject: Kitchen renovation

In consideration of hygiene requirements and to upgrade the quality of food, it was resolved by the G.C. at a meeting on August 24, 2009 to approve kitchen renovation works. The kitchen renovation project includes three work segments, Equipment Reconfiguration, Re-setting of Ventilation and the setting up of an Aquarium (fish tank). We invited tenders for the subject works accordingly.

The deadline for tender collection was September 4, 2009 at 6:00 p.m. and sealed tenders were opened by Mr. Frankie Wong and Mr. Hui Ming Wang on September 5, 2009.

The following details are summarized from the tenders and are shown below for your reference:

- a. Equipment configuration Number of tenders received : 14 tenders
- b. Kitchen ventilation - ditto - : 15 tenders
- c. Aquarium (Fish Tank) - ditto - : 4 tenders

A sub-working group meeting was held on September 9, 2009 where Mr. Frankie Wong, Mr. Allan Wong Sak Pang, Mr. David Ng and I were present. We conducted an extensive study and reviewed all tender proposals. We unanimously reached an agreement to award contracts to the following contractors:

- a. Equipment configuration Contract awarded to: OMA at HK\$235,600.00
- b. Kitchen Ventilation - ditto - : Luen Fungat HK\$47,100.00
- c. Aquarium (Fish Tank) - ditto - : 詠洋工程公司 at HK\$46,000.00

The reasons they were chosen are:-

1. Their quotes were the lowest amongst all tenders (with the exceptions of those disqualified tenders).
2. The contents of their quotations were the most comprehensive in detail.
3. Their presentation was professional enough.

The above works are expected to be completed on or before October 10, 2009 to coincide with the re-opening of catering services. Should you have any inquiries for further information, you are welcome to contact our Club Manager Mr. Francis Yeung.

Yours faithfully,

Patrick Cheng
Bar & Restaurant Convenor
