

KOWLOON BOWLING GREEN CLUB

16 October 2009

TO ALL BOWLERS

Please note that with the re-opening of the Club Restaurant facilities, we are now able to resume the bowling league game teas for our members and opponents. We are optimistic that the quality of teas offered, will see a major improvement from those we have experienced for many many years. However, as always with progress, it is going to cost us all a bit more. The new price will be HK\$25 per tea instead of the HK\$20 previously charged. As we have to pay for our opponents it will be HK\$50 each per home game.

I believe it is well over fifteen years since the price of our tea has changed, so it is not unreasonable to see an adjustment at this time. The new price per home game is HK\$10 more. We play during the Summer and Winter Leagues approximately 14 home games. This means an annual increase in expenditure of HK\$140 or less than HK\$3 per week for the year. Again I don't see this as being unreasonable and I hope that all our bowlers will accept this new charge graciously. Who knows!! With better food we may play better bowls!!
