Subject: **Changing Room Facilities at USRC**

Dear Howard,

Please help us to promulgate to other bowling clubs the new changing room policy adopted by the USRC LBS.

With effect from 20 August 2011 when the second half of the Premier League resumes, players from Away Team may use the changing room facilities at the Squash Block immediately west of the USRC home green. Players can make use of the changing room and toilet facilities therein, but there is no shower facilities. In view of the high demand of changing room facilities by USRC members at the main block, they are not to be used by visiting players without special permission. If players need to use the shower facilities at the main building, they should approach the USRC captain for special arrangement.

Thanks for your help.

Best wishes,

David Tse

Hon Secretary

USRC LBS
