

KOWLOON BOWLING GREEN CLUB

致各會員：

早前本會誠邀香港中文大學建築系學生參與一項由本會舉辦之「重建九龍草地滾球會建築設計比賽」。我們收到的參賽圖則共有七份。是次比賽的評審小組成員包括香港中文大學建築系院長何培斌教授和三名建築設計行業專業人員，分別是建築設計研究院集團有限公司會長林雲峰教授、馮永基教授和利比主席羅啟華先生，及九龍草地滾球會會長陳志新博士和副會長龍約翰先生。評審小組最後選出三份優異設計圖則。

現在各會員可以在會所內欣賞那些既卓越又富創意的作品。現階段我們需要研究建築和融資的可行性，歡迎各位會員提供寶貴的意見。

陳志新

九龍草地滾球會會長

TO ALL MEMBERS

The student body of the Architectural Faculty of the Chinese University of Hong Kong was invited to take part in a design competition for a potential development of KBGC. The students formed teams amongst themselves and seven entries were subsequently received. An adjudication panel was empowered to discuss and vote on the entries. This panel consisted of the Dean of Architecture at the Chinese University, Professor HO Puay-peng, three professionals from the Architectural Design industry, namely Professor Bernard V. LIM, Principal of the Architecture Design and Research Group Ltd., Professor Raymond FUNG Wing Kee, and Mr. Philip LO Kai Wah, Chairman of Rider Levett Bucknall, Dr. C. S. CHAN, President of KBGC and Mr. John LUNN, Vice President of KBGC.

The result of the judging can be seen here with the entries that were awarded, first, second and third place. The students we believe did a first class job and their innovative designs have certainly given food for thought. The winning entry whilst being the preferred one is not definitive however, because the next step would be a feasibility study for both construction and finance. Consequently, at this early stage members' comments are most welcome.

C. S. CHAN

President
