

KOWLOON BOWLING GREEN CLUB

25th January 2011

To All Members,

No Smoking in KBGC

Please note that at a meeting of the General Committee, it was resolved that from the 1st February, 2011 the entire premises of the Kowloon Bowling Green Club will be designated as a NO SMOKING AREA except for the following:-

For those members wishing to smoke, two areas have been made available for them. One area is in the corner of the Car Park where table and chairs have been placed, this area has been clearly marked accordingly. The other area is immediately in front of the clubhouse at Green level and this area has also been marked accordingly. To be absolutely clear, this means that members, members' guests or visiting team members may not smoke on the greens or the area surrounding the greens and the aforementioned two designated areas are the only two places that smoking will be allowed.

All staff have been requested to ensure that this decision is adhered to.

By Order of the General Committee
